

Environmental Policy

We at TDR Quantity Surveying Services are committed to leading the industry in minimising the impact of its activities on the environment.

The key points of our strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Meet or exceed all the environmental legislation that relates to the Company.
- The Company will implement a training program for its staff to raise awareness of environmental issues and enlist their support in improving the Company's performance.
- As we are an island and as we have clients overseas, we need to fly regularly. We commit to minimising the number of flights we take, but on the occasions that we do fly, we commit to make a donation to the Irish Peatland Conservation Council (IPCC) to assist with off-setting our carbon footprint.
